Only Extra Expense of Oyster Bay Display Is Salutes.

WILL FIRE 1218 SHOTS

These Cost Only Fifty Cents Each, as Only the Lighter Guns Are Used.

The great naval review off Oyster Bay on Labor Day will not cost Uncle Sam \$1,000,000, as has been reported. It will cost only \$609 over and above the expenses of maintaining the fleet of forty-five vessels for one day, which would have to be borne whether or not there were any review.

The only extra expense attached to this big display will be for the saluting. The navy does not use its heavy guns in saluting, but the small sixpounders. It also uses old-fashioned black powder that has been condemned for all the other purposes. The cost of these discharges, as estimated by the Bureau of Ordnance, is 50 cents per shot, including wear and tear on the gun and ship.

Saluting Vessels Number 26.

There will be twenty-six saluting ves-sels in the fleet. As soon as the Mayflower appears upon the scene and unfurls the President's flag all of those ships will unite in a salute of twentyone guns. That means a total of 548 Then as the President's ship passes along the lines each ship will salute again with twenty-one guns.

be at 1.30 instead of 1 o clock in the
afternoon, in order to afford the President more time in which to complete
his review of the assembled fleet.
The Mayflower is scheduled to leave
Oyster Bay at 10:45 a. m., which will
enable her to reach the head of the
reviewing lines at 11 o'clock sharp.

Ten new cases of typhold fever were reported at the Health Department today, an increase of three over the corresponding day of last year. The fever situation shows no alarming features today; if anything, it appears to the health authorities as more favorable than one week ago, when the record exceeded that of last year by many cases, The total number of cases now report-

ed since the first of the year has reached 529, as compared with 540 during the corresponding period of 1905. The present total was not reached last year until September 1.

passes along the lines each ship will salute again with twenty-one guns. But in this second round the Dolphin and Des Moines will not join, they not being part of the reular fleet. That makes a total of 1,050 shots.

Then it is expected that the President will pay a visit to the senior officers on board the Maine (Admiral Evans' flagship), the Alabama, the West Virginia, and the Louisiana. As he comes aboard and leaves each of these ships he will be given another salute, which means 168 more shots, making a grand total of 1,218 guns to be fired during the day. At 50 cents a shot that would make the total cost \$609 instead of \$1,000,600.

WHO LOANS 3%

Ask your lawyer, landlord, or banker.
We are making loans every day to parties sent direct from National Banks.
Why? Because we are not in the Trust; because we do as we advertise, and because we are enemies of the high-priced 10 per cent money sharks. Look at the following rates. A child can understand them:
\$15 only \$7c per mo.
\$25 only \$1.23 per mo.
\$50 only \$1.66 per mo.
\$100 only \$2.66 per mo.
If you pay a newspaper they will advertise anything. Don't be misguided or secure a loan until you have consulted us. A postal will bring our representative to your door.
